PREFACE

This study was carried out with funds kindly made available by the Chief Fisheries Officer in Troms from the regional appropriations for Northern Norway.

The study was conducted in November 1985, using a consignment of farmed salmon exported from Tromso to Hamburg. To prepare suitable conditions for the work to be done in Hamburg and to study the factors that may influence quality impairment in farmed fish in view of its sales/export, Oistein Pettersen from the Kaldfjord Trading A/S was assigned to the project. His report is enclosed as a separate appendix.

The following firms are extended thanks for their assistance with the implementation of the project :

Gottfried Friedrichs K G. Hamburg, West Germany
Hjalmar Johansen & Co, 9110 Sommaroy
Kaldfjord Handel & Fiskeforretning A/S, 9100 Kvaloysletta
Rya Fiskeindustri A/S, 9100 Kvaloysletta
Bjornflaten Frysetransport A/S, 9000 Tromso.

Without their collaboration, it would not have been possible to implement the project.

Tromso, March 1986

Jan Hansen
